Patrick Wood's 2024 Forecast

Year two of the "New International Economic Order"

If 2023 was a dumpster fire, 2024 will see the building catch fire. However, we need to review some things that happened in 2023 that will greatly impact 2024.

1. 2023 Was Year ONE of The New World Order

First, a Trilateral Commission member addressed their plenary meeting held in New Delhi, India, on March 12, 2023.

> *"Three decades of globalization — defined as integrated, free-market based and deflationary — has been replaced by what will be a multidecade period of globalization defined as fragmented, not-free-market-based but industrial-policy based and structurally inflationary.* ***This year, 2023, is Year One of this new global order."***

They are not playing fiddle sticks here. I got the message loud and clear, and so did Klaus Schwab and his World Economic Forum cult. I wrote on March 17 about what was at stake:

> *The Trilateral Commission, acting as the quarterback, has relayed the call to the WEF that* ***"This year, 2023, is Year One of this new global order."*** *In other words, pull out all the stops. The Great Reset has arrived. Execute the battle plan to terminate capitalism and free market economics.*

> *We are already experiencing a "polycrisis of doom" where multiple crises are descending upon us simultaneously. There is a man-made energy crisis that is warring against coal, oil, and natural gas. There is a man-made food crisis that is warring against all traditional food systems. There is a man-made financial crisis that threatens the total collapse of the existing financial system. There is a man-made military conflict between Russia and Ukraine that threatens WWIII.*
>
> *Any one of these pending crises could be seen as a "scorched-earth" policy where total destruction is possible down to the ground level. If all four are unleashed simultaneously, it would be the equivalent of atomic warfare, resulting in a literal "dark winter." Such a collapsed world would be ripe for total capture and rebuilding into Technocracy's dystopia.*
>
> *Unfortunately, few people have given credence to the Trilateral Commission over the years. I will say pointedly that the first person to bust them was the late scholar and professor Antony C. Sutton, with whom I co-authored Trilaterals Over Washington, Volumes I and II, between 1978 and 1981. Few paid attention back then, just as few pay attention today. We were mercilessly censored back then, just as I am censored today. Nevertheless, our work has stood the test of time, and now the endgame is at hand.*

Every one of these man-made crises mentioned above can be traced directly back to the Trilateral Commission. Also traced back to them is the U.S. border invasion. (If you have not read both volumes of *Trilaterals Over Washington* by Sutton and Wood, don't bother to argue with me on this.)…
